

The diagram is a floor plan of a building, likely a laboratory or industrial facility, overlaid on a grid. A central vertical corridor runs through the middle. To the left of the corridor is Section A, and to the right is Section B. Both sections contain several rectangular rooms of varying sizes. At the top of each section are two large circular features, possibly ventilation ducts or large windows. The text 'Ethanol Column' is positioned in the upper part of Section A. A red vertical line marks the center of the corridor.
